CAREER OBJECTIVE

Seeking a role in a company that encourages idea-sharing and mentorship, allowing me to contribute my insights while gaining guidance for a successful career and fostering growth within the industry.

EXPERIENCE

Full Stack Developer Intern $\hfill$ 01/2023 – 2/2023

Align Together Solutions Pvt. Ltd. $\hfill$ *Bhopal, M.P.*

- Gained valuable hands-on experience as a Full Stack Web Developer intern, working collaboratively with a cross-functional team to develop the Eko Connect WLC product for **Eko India Financial Services Pvt. Ltd**.
- Acquired proficiency in implementing front-end features using **Next.js** and **Typescript** to ensure an intuitive and user-friendly interface.
- Demonstrated expertise in utilizing the Chakra UI library to create visually appealing and responsive designs, thereby enhancing the overall user experience.
- Developed a strong understanding of version control practices by effectively utilizing **Git** and **GitHub**, ensuring smooth collaboration, maintaining code integrity, and reducing deployment errors by **40%**.

PROJECTS

Scope Seeker - Job Search Platform $\hfill$ **Link** | 3/2023 – Present

- ∗ Creating Scope Seeker, a centralized job search platform, as the **lead full-stack web developer,** to address challenges faced by students and fresher job seekers in the tech industry.
- ∗ Leading the design and implementation of an intelligent job search solution, utilizing my strong grasp of front-end and back-end technologies to optimize job recommendations and elevate the user experience.
- ∗ Coordinating with a **3-member** team using **GitHub** and **Jira Software** for version control, issue tracking, and effective project management, showcasing strong **teamwork** and organization skills.
- ∗ Utilizing **Next.js, 13.4, and MongoDB** to construct a scalable and high-performing web application, resulting in a remarkable **30%** enhancement in site responsiveness and seamless user experience.
- ∗ Currently in the testing phase, preparing to launch the project on a city level to gather real-world feedback and validate the platform's effectiveness.
- ∗ Finalizing plans to utilize social media and Google Ads for targeted marketing, with the goal of reaching **5,000 users** within the first three months of launch, fostering broad adoption of the platform.

Easy Task - Project Management Web App $\hfill$ **Link** | 10/2022

- ∗ Launched Easy Task web application designed to streamline project management and facilitate team collaboration.
- ∗ Executed a range of features including task assignment and tracking, voice updates, chat functionality, and meeting scheduling, leading to an impressive **40%** increase in team communication efficiency.
- ∗ Applied a diverse set of technologies including **Node.js, Express, Web Speech API, Socket.io**, Ajax, and **MongoDB** to enable real-time communication and collaboration among team members.
- ∗ Integrated **Socket.io** for real-time chat functionality, enabling team members to communicate seamlessly.
